

MedIndex Research - Pharmacy Feedback

Fax to 026 270 1800 or email document to guild.nat@guild.org.au

Respondent's Name	
Pharmacy Name	
Phone	
Fax	

Background - The MedsIndex Score gives a patient a score out of 100 for each of their chronic management therapy medicines. The Pharmacy Guild of Australia wishes to collect data on MedsIndex. The Guild will use this data with third party payers and with research projects to show the cost benefit of why pharmacists should be remunerated for this service. Please support The Pharmacy Guild by periodically completing and faxing though the form/s. Please maintain a copy for your records which may be required for confirmation of information. Thank you for your support.

Kos Sclavos – National President

	Patient Initials Only (Please list each medicine for a patient separately)	Medicine (Brand and strength)	Dose	MedsIndex Score	Doses analysed (e.g. Data period - one prescription with 5 repeats 6 = dispensing)
	KS	Seretide Accuhaler - 500mcg	1 bd	65	6
