Our mission

We're here to ensure you are there for your patients.

We are a national employers' organisation with almost 100 years' experience representing and promoting the value of community pharmacy in the Australian healthcare system.

Established in 1927, the Pharmacy Guild of Australia is a membership-based organisation representing the owners of community pharmacies.

The Guild's mission is to serve the needs and preferences of patients and health consumers across Australia using pharmacy's unique role in medication management and safety.

Engaged, enabled & supported team

A vibrant, dynamic and commercial community pharmacy network is essential for the health and wellbeing of *all Australians.*

Workplace relations support

Access expert staff and resources who provide advice and support across critical areas such as employment obligations, work health and safety, commencing and ceasing employment, and guidance to help you understand legislative changes and workflow implications.

Professional development, education & training

Access complimentary membership with the Australasian College of Pharmacy, the one home for continuing professional development and education for the entire pharmacy industry. The college supports members and the wider industry, including academics, owners, pharmacists, interns, pharmacy assistants or students, throughout their whole pharmacy career.

Employee Assistance Program (EAP) through TELUS Health NEW

Access our comprehensive and modern EAP for your pharmacist and pharmacy assistant staff with our partner TELUS Health. In addition to professional counselling and therapy services, we provide access ongoing proactive health advice via a range of interactive digital tools such as a mobile app and website resources.

Exclusive networking & connection opportunities

Connect with other like-minded pharmacists and pharmacy owners making a difference in their communities. The Guild offers member discounts and inclusions for a range of local and national events and conferences including the Australian Pharmacy Professional (APP) conference and Pharmacy Connect.

Industry advocacy & insights

Your voice to government

Our priority is to understand current and future challenges in community pharmacy so we can represent your needs and concerns, and fight for what matters.

Policy development

We work with Commonwealth and state governments to ensure community pharmacy is considered front and centre where it matters. We continue to push for pharmacists to work to their full scope and for national harmonisation of pharmacy practice to improve equity of access to primary health care for all Australians.

Shaping public opinion

We advocate for you to be able to work to your full scope of practice, while also expanding your practice through initiatives including eHealth and e-prescribing, access and affordability of medicines, vaccination harmonisation and the introduction of mental health services.

Key insights and up to the minute briefings

Guild members receive early access to important information including monthly PBS price changes. We keep our members informed about key issues as they arise. Hear directly from your National President and council members in Guild member briefings, Guild Alerts and regular research and insight reports.

"I've found the Pharmacy Guild to be so helpful for me and my business partners. There's been quite a few times when I've needed a bit of help or advice - I just contact one of our branch people who will either help or get me onto who I need to speak to. I just couldn't recommend the Guild highly enough."

Business support & viability

Business support

Access customised support from Guild staff to help you reach your pharmacy goals. This includes Quality Care (QC2020) program support and pharmacy services advice. Our regular webinars and podcasts highlight stories from experienced pharmacists who have implemented new programs and services. Hear from Pharmacy of the Year Award winners and business experts as you transform and grow your own business.

Promote your pharmacy on findapharmacy.com.au

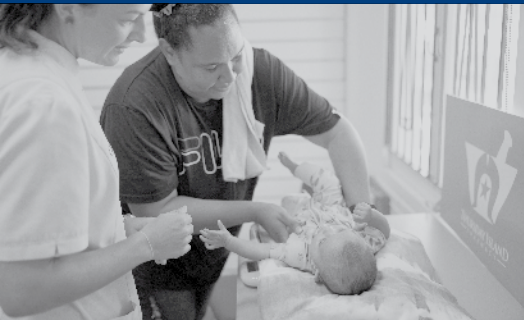

Promote your pharmacy's services, booking URL, location, and trading hours information on findapharmacy.com.au to help patients find and access your pharmacy. Update your pharmacy's details including service offerings at any time on your *MyGuild* website portal.

Industry resources

Access valuable member exclusive resources on your *MyGuild* website portal. These include the annual *Rental Report*, *Buying and Selling Guide* and *Guild Digest* and the quarterly *State of the Industry* report. In addition, you can contribute to and receive member and patient research supporting the Framework for Change implementation and other initiatives.

Guild Corporate Vaccination Program

We recruit on your behalf for this opt-in program. You provide in-pharmacy vaccination services that generate additional revenue and bring patients to you – with no additional training required.
