CERTIFICATE II IN
COMMUNITY PHARMACY

Who should complete this training?

This qualification is aimed at new pharmacy assistants or job-seekers interested in beginning their career in community pharmacy. Expanding your skills provides career growth and opportunities, helping you to secure your future.

As a pharmacy assistant, you provide customers with medicines and pharmacy products to help them with common illnesses and health conditions. You are also a vital link between the customer and the pharmacist.

Accredited training can help you ensure that your customers receive the best advice, care and health solutions.

What training do I need?

The Certificate II in Community Pharmacy is your first step in a career in community pharmacy. This qualification will provide you with the basic skills in both pharmacy and retail skills. The course also teaches work-ready skills on customer service, workplace health and safety and front-of-shop skills.

New pharmacy assistants who are employed in a community pharmacy may also complete this qualification. This qualification provides you with a basic understanding of medicines, their location in the pharmacy and the important questions you need to ask your customers. Most pharmacy assistants complete the course in less than 12 months. This qualification is nationally recognised in all states and territories of Australia.

**DO YOU KNOW ABOUT
RECOGNITION OF PRIOR
LEARNING (RPL)?**

Available for all qualifications, the RPL process recognises the skills and competencies gained through work experience, prior training and life experience.

Through RPL, competency may be granted for specific units within community pharmacy qualifications, meaning some pharmacy assistants can finish their course earlier than expected.

How long will the course take to complete?

The Certificate II in Community Pharmacy is a flexible course that can be tailored to meet your learning requirements and career goals.

This qualification can be delivered face-to-face in our Guild Branches or via distance education, and can be completed in six to ten weeks.

The training may include a period of time spent in the pharmacy undertaking work experience.

What will I study?

Guild Training is a preferred training provider for community pharmacy qualifications and offers real-life learning solutions.

To complete the Certificate II in Community Pharmacy you will need to complete 12 units—4 core units and 8 elective units. The core units will provide you with a basic understanding of a community pharmacy and the medicines and pharmacy products that we sell. The elective units will allow you to select units in common medicines or increase your retail skills.

Do I need to have completed any other qualifications?

There are no entry requirements to complete this qualification. However, you will need sound English and numerical skills.

When can I start?

The Certificate II in Community Pharmacy may be delivered face-to-face in our Guild Branches throughout the year so contact your state/territory Branch for upcoming dates. The qualification may also be delivered to new pharmacy assistants so we can start as soon as you are ready.

Accessing government funding, which can impact on the cost of this qualification may be dependent on how long you have been working, so the sooner you contact us the better.

How much will this qualification cost?

The cost of the course may be dependent on government funding. Contact us and we can assist you and your pharmacy in accessing any available funding. Payment plans are also available.
