

PRODA ACTION PLAN and ACCESS POINTS for community pharmacies

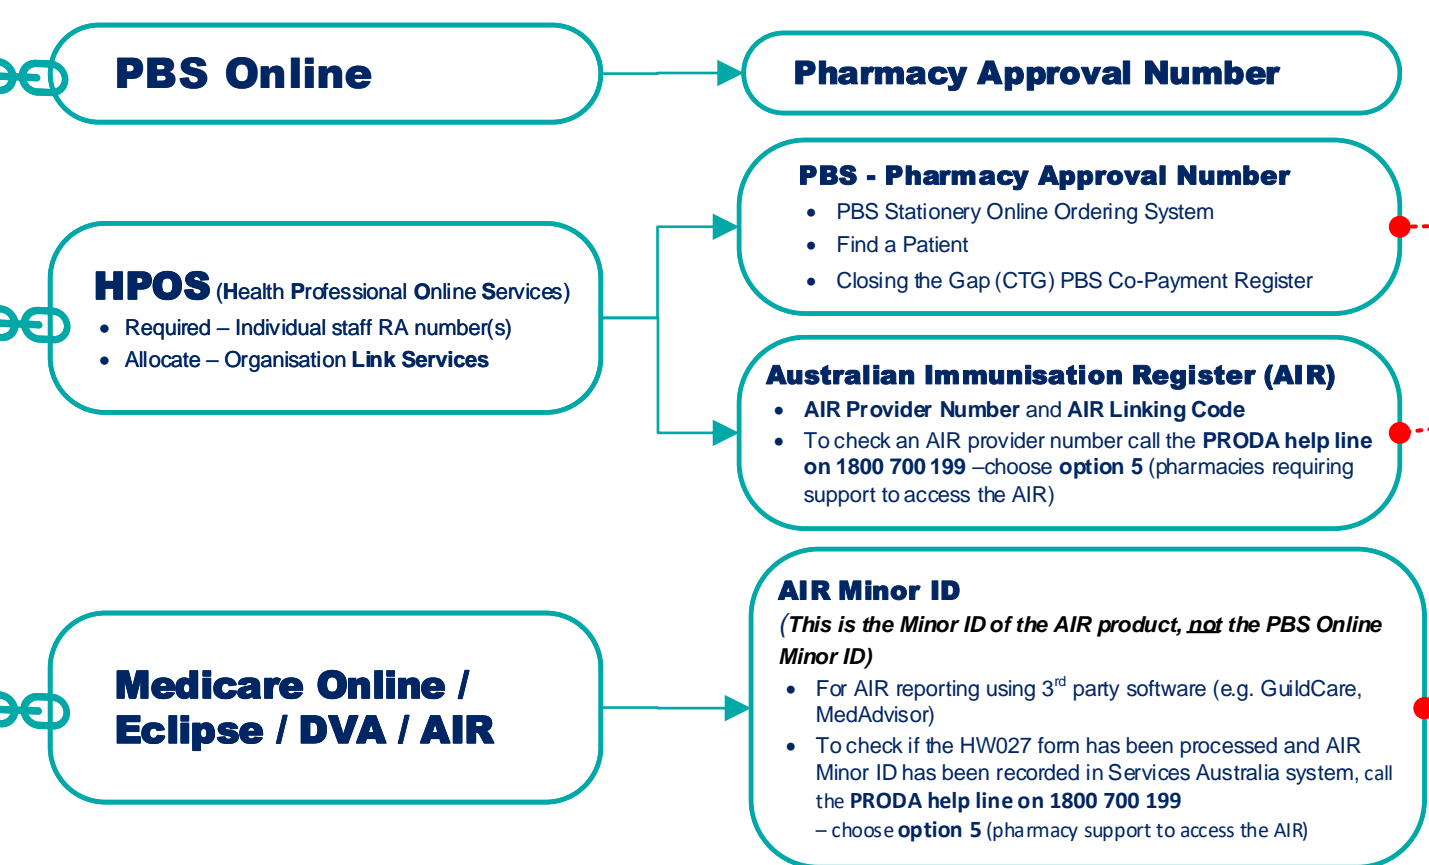

(via Services Australia web services)

PRODA is the online authentication system pharmacies will need to use to securely access certain pharmacy-related government online services.

1 Setting up your PRODA account

2 Linking services to your PRODA account

Provide an email address that you regularly access (e.g. personal email address) to ensure email messages reach you

If you don't have clinical management software (e.g. GuildCare) and you need to view data held on the AIR, you can access the AIR site using HPOS.

To assist in completing the HW027 Form, use the Guild's GUIDE document HERE
