

# Your Guild in action

7<sup>th</sup>  
CPA

## 7CPA & Ongoing Lobbying with Government

We understand how much the 7CPA means to you and your business. We have successfully negotiated the 7CPA which provides certainty and stability for community pharmacy. Our goal for you is to continue to fight for the viability and scope of practice for our industry.

## Coronavirus (COVID-19) Pandemic & Emergency Relief

This unprecedented situation has highlighted the important role community pharmacists play in the healthcare system. Our priority is to represent you and ensure you are protected and well informed. We provided immediate financial support to pharmacies that were supporting their patients affected by the bushfires and we ensured the state government extended PBS Emergency Supply provisions.

## Vaccination Opportunities

We have provided members with new revenue streams by successfully leading the state government to lower the age for pharmacist vaccinations in SA, and through member only access to the Guild Corporate Vaccination Program.

## IR and HR Advice

We are here to provide best practice advice in relation to your obligations and rights as an employer including phone support, guides, templates, newsletters and WR updates.

## A Dedicated Business Support Team

We are here to help your day to day business, from maximising your remuneration from the CPA, to helping you navigate legislation, ePrescriptions and your next QCPP assessment.

## Special Member Rates and Discounts

Special member discounts on conferences, staff training, merchandise, CPD events and software and a complimentary business listing on findapharmacy.com.au, regularly accessed by consumers, industry stakeholders and Government departments.

2020 has been one of the toughest years the community pharmacy industry has faced. We are here to support you every step of the way, this year and beyond, as the industry re-groups and recovers.
