

CORONAVIRUS (COVID-19)

- » If you have travelled to one of the countries currently identified as being at risk and you believe you are showing symptoms, please quarantine yourself at home for 14 days.
- » If you have symptoms and you need to see a doctor for any reason, please telephone your GP or hospital Emergency Department before presenting.
- » Soap and water is just as effective in cleaning hands as an alcohol-based rub.
- » If you are seeking additional prescription refills, we will consult your GP as these may be subject to legal requirements requiring approval.
