

Access and Equity Policy

Guild Training is committed to providing a fair and equitable learning and working environment for all learners and staff. Guild Training seeks to ensure that its program design, course content, training facilities, and all aspects of the training and assessment process provide equality of educational opportunity to all learners.

Guild Training acknowledges that this is dependent on non-discriminatory access to services and comparable educational outcomes by all groups in society. Providing accessible and equitable education and training to all prospective learners will enable them to develop knowledge and skills to enhance life and work opportunities.

Guild Training recognises that particular groups of people in society have experienced institutional disadvantages and unequal education outcomes and therefore ensures that it works to eliminate barriers to access and participation. All Guild Training products and services contain no implicit limitations based on age, gender, physical, mental, social or educational background that may constrain any learner's participation in training and assessment. Guild Training ensures equity for learners through the fair allocation of resources and involvement in vocational education and training.

This policy and procedure has been developed by the Pharmacy Guild of Australia (the Guild) as an all-inclusive document for delivery of training and assessment services in the state/territory Branches and should be read in conjunction with the individual state/territory Branch policies and procedures.

Procedures: actions and responsibilities
